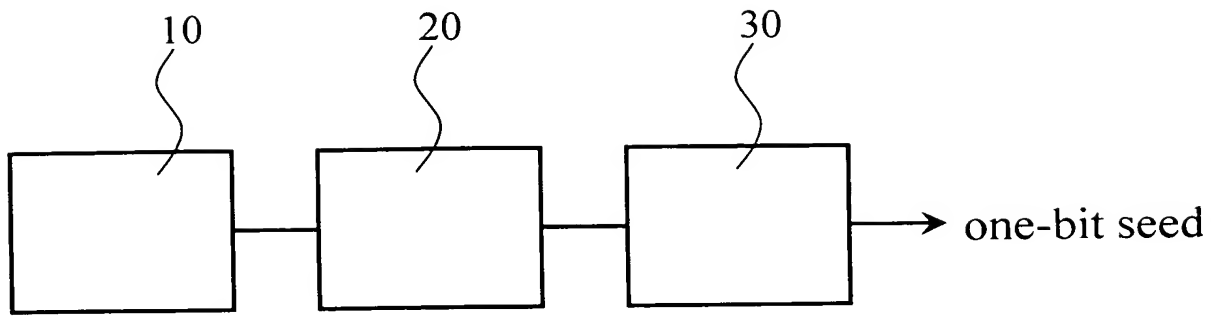

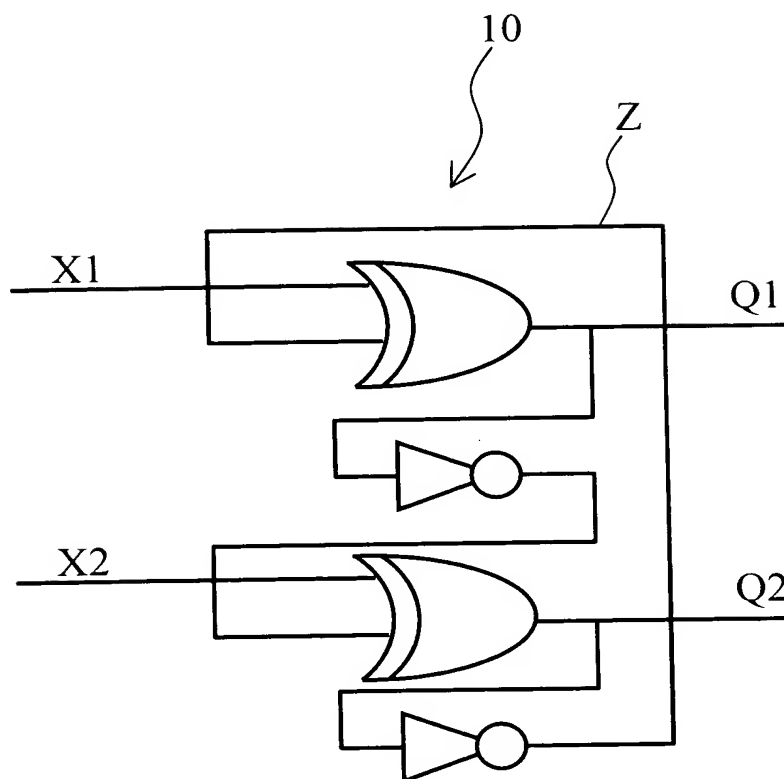

FIG.1

2/15

If $X1=X2$,
an operation equivalent to a flip-flop having even
inverters

In the case of $Z=1$

- when $X1=X2$, $Q1=0$, $Q2=0$
- when $X1=X2=0$, $Q1=1$, $Q2=0$

In the case of $Z=0$

- when $X1=X2$, $Q1=1$, $Q2=1$
- when $X1=X2=0$, $Q1=1$, $Q2=0$

If $X1 \neq X2$,
an operation as a ring oscillator
